PROFILE

Frontend developer from Denpasar, Bali - turning ideas into fast, felt web experiences. Five years of shipping production web across property, hospitality, edtech, and AI. I care about honest loading times, state that behaves, and keyboard paths that work.

EXPERIENCE

Frontend & Backend Developer - PT. Miravelle Sunzaryn
Oct 2022 - Jun 2026

- Managed and maintained client websites including property investment platforms serving live investor traffic.
- Led website migration to a new architecture with improved performance and a reusable component system.
- Shipped the Geonet investor portal and admin panel from empty repo to production.

Frontend Developer (Internship) - PT Bina Taruna Wiratama
Sep 2024 - Jan 2025

- Implemented Figma designs into responsive dashboard interfaces.
- Contributed to the development of the AI writing platform, Ases AI.
- Built an e-learning admin for teachers to create and manage student questions.

Frontend Developer - PT Semua Aplikasi Indonesia
Apr 2021 - Aug 2022

- Where the coding journey started - first hands-on with Next.js, React Native, Tailwind CSS, and ArangoDB.
- Helped develop landing pages and backend database work using Next.js and ArangoDB.
- Built responsive web and mobile views across early client projects.

WORK STYLE

Independent, curious, and adaptable. I enjoy taking ownership of tasks, learning through hands-on work, and finding practical solutions to technical problems. I am comfortable working independently or with a team, and I use AI tools thoughtfully to improve research, development, documentation, and productivity.
